

# Trim Check Processing Costs

## IIMAK Original MTTR Ribbons

### Magnetic Thermal Transfer Ribbons

#### Accuracy, Precision and Value

For over 10 years, IIMAK has manufactured magnetic ink ribbons used for check encoding and printing. For the first time, these original MICR ribbons are available in the aftermarket delivering high quality and cost savings to the banking industry.

As the patent holder for magnetic ribbons and the largest TTR manufacturer in the US, IIMAK MTTR Ribbons are proven in the industry to lower processing costs and maintain high efficiency:

- Lower printing costs
- High read rates
- Precise positioning
- Crisp, clear character formation and spacing
- No voids or extraneous ink
- Strong magnetic signal
- Available for NCR Encoders

PATENT No. 4,581,283 and 4,463,034
