

**Product Announcement**  
**Color Resin Ribbons**  
 For use in the Gerber Edge®  
 and Edge 2 Printers

**End \$ense®**

**Never run out of ribbon in the middle of a job again!**

Our patented End \$ense® gauge visually identifies just how much ribbon is left in the cartridge with a red warning track that signals when only five yards remain.

You can easily see how much ribbon is left by the concentric rings exposed as the ribbon is consumed enabling you to quickly assess inventory levels at a glance.
