

## Product Announcement

### Color Resin Ribbons For Use in Gerber Edge® and Edge 2 Printers

**Product Name:** **DuraCoat UV-Guard™**

**Features & Benefits:** Now it is easy to protect your graphics - even when used in demanding environments! DuraCoat UV-Guard provides:

- Gloss finish with added UV protection.
- Increased resistance to wear when handled repeatedly.

**Availability:** You asked for it, you got it! UV-Guard is available in 55 yd., and 100 yd. cartridges and refills.

DESCRIPTION	PART NUMBER
55 yd. Cartridge	FGB308UVS
55 yd. Refill	FGR308UVS
100 yd. Cartridge	FGB308UV
100 yd. Refill	FGR308UV

**Pricing:** Priced the same as standard Spot Colors. What a deal!

#### Recommended Printer Settings:

##### Gerber Edge 1 (In QuickPlot Screen)

1. At top of screen, select 123 Button (Print Options).
2. Select Finish Button, then choose MATTE CLEAR GCF-334.
3. Select Application Type as 'FLOOD COAT'.
4. Select the Substitute Button, select VINYL, and select the specific vinyl being used.
5. Deselect 'CONSERVE FOIL'.
6. Select OK.
7. If streaks appear, adjust heat settings – Dark or Darker may be required.

##### Gerber Edge 2 (In QuickPlot Screen)

1. Press F7 button or Device Select Screen, click on Print Mode, scroll to Edge 1 and select the Preference button to lock in.
2. At the top of the screen, select the 123 Button (Print Options).
3. Select Finish Button, then choose MATTE CLEAR GCF-334.
4. Select Application Type as 'FLOOD COAT'.
5. Select the Substitute Button, select VINYL, and select the type of vinyl being used.
6. Deselect 'CONSERVE FOIL'.
7. Select OK
8. If streaks appear, adjust heat settings - Dark or Darker may be required.
